Happy Kitty Mean Kitty

**Items needed:** card stock printer paper, scissors, exacto knife, and glue stick.

**Instructions:** With a color printer, print out PDF on card stock paper. Cut out the mouth with the tab, the lower lip, and the Happy Kitty. With an exacto knife, cut along the red dashes on the Happy kitty’s mouth. Insert the (mouth with tab) tab first in the back of the kitty’s cut mouth. Glue the lower lip on the tab below the mouth and let dry.

Pull the tab up and down to make your Happy Kitty a Mean Kitty. I can see your smile already! *(Picture of a Feisty Pet)*
